

EFFEGI BREGA

Our vaporizers:

MINIVAPOR 200

MINIVAPOR 93

MULTIVAP

MS 2005 - Millenium

VK300 - VK400 - VK500New

are certificate TÜV - GS.

Brand GS finds origin in German law for the emergency of the equipment but the literal translation of "GS" is not German emergency, but "verified emergency". Generally the emergency aspects electrical worker of a product are estimated, verified and certified in according to the application of the brand. The GS mark indicates to the purchaser that the selected product has been tested with respect to safety, including its operating instructions. To convince our mark even better for you and your customers we have connected our GS with the unique TÜV mark.

TÜV: Technischer Überwachungs-Verein

TÜV (short for *Technischer Überwachungs-Verein*, *Technical Inspection Association* in English) are [German](#) organizations that work to validate the safety of products of all kinds to protect humans and the environment against hazards.

GS: Geprüfte Sicherheit

The **Geprüfte Sicherheit** ("Tested Safety") or **GS** mark is a voluntary [certification mark](#) for technical equipment. It indicates that the equipment meets [German](#) and, if available, European safety requirements for such devices. The main difference between GS and [CE mark](#) is that the compliance with the European safety requirements has been tested and inspected by a state-approved (but independent) body. A CE Mark, in contrast, is issued for the signing of a declaration that the product is in compliance with the standards. The mark is based on the German Equipment and Product Safety Act.
